Proficient in : Development, REST API, Deployment, UI, Data Structures, Authentication
Familiar with : HTML, Bootstrap, CSS, Material UI, Ant Design

CERTIFICATION

Entri Elevate 2023-2024
Full Stack Web Developer

- Developed and maintained full-stack applications using the MERN stack, ensuring smooth integration between frontend and backend components for optimized performance.

PROJECTS

Car Rental Website | *React.js, Node.js, Mongo db*

- Implemented secure RESTful APIs with Node.js and Express to handle data for cars, users, bookings, and feed-back ratings, ensuring efficient and secure data interactions.
- Integrated Stripe for secure payment processing and implemented JWT for robust user authentication and authorization
- Utilized MongoDB and Mongoose for optimized data management and schema design..
- Enhanced user experience and operational efficiency by utilizing Nodemailer to send real-time booking confirmation emails.

Ecommerce | *Html, Css, Node.js, Ejs, Mysql*

- Developed a dynamic e-commerce platform featuring a user-friendly interface
- Integrated a cart system with category selection to allow users to filter and organize products efficiently
- Implemented secure payment integration using Stripe..

MINI-PROJECTS

Developed a real-time weather app

- Using HTML, CSS, and JavaScript, fetching live weather data via API integration. Ensured a clean, responsive, and user-friendly interface with smooth animation

Youtube Clone

- Built a YouTube clone using the YouTube API to fetch and display videos dynamically, providing a clean, ad-free, and distraction-free experience for users.
